To Whom It May Concern:

Pat Oekerman from Arizona Ram Jack Foundation Repair Systems recently did a foundation lifting and stabilizing on my home. I highly recommend his services to anyone needing such repairs.

I was amazed not only at his ability to repair a previously settled area of my home, but also at the level of quality and professionalism with which the project was carried out. Pat is very knowledgeable, his work is affordable, and he made sure the job was done right.

Years ago, my father had a small business with the motto, "We go the extra mile." Nowadays, finding this type of business ethic seems to be increasingly rare. Mr. Oekerman is the exception.

Sincerely,

Ron Higginbotham
